### DESCRIPTION

JET-LUBE LAPPING OIL is a blend of high quality, low viscosity oils used in grinding and polishing operations. Abrasive particles are kept in a colloidal suspension without clumping or damming which assures a consistently smooth and uniform finish. The LAPPING OIL also helps to cool and lubricate the surface being finished, and provides for the continuous removal of residue as it is removed.

### CHARACTERISTICS

- Cools
- Lubricates
- Keeps abrasives in suspension
- Removes residue
- Eases use of lapping plates
- Remains stable under pressure

#### OPERATING RANGE

-40°C to 120°C (-40°F to 248°F)

### APPLICATIONS

For use as a carrier for a wide variety of abrasives used in polishing molds, toolings, metal surfaces, etc.

### PRODUCT SPECIFICATIONS

Fluid Type	Mineral Oil
Color	Off-Yellow
Specific Gravity, Typical	0.835
Density (kg/liter), Typical	0.835
Additives	None
Viscosity @ 100°C, Typical	1.4 cSt

### PACKAGING

<b>Inventory Code</b>	<b>Container Size</b>	<b>Container</b>
188675	200 Liter	Drum

### LIMITED WARRANTY

Jet-Lube of Canada makes the Limited Express Warranty that at the date of delivery, this product shall be free from defects in Jet-Lube of Canada Ltd. materials and workmanship.

This Limited Express Warranty is expressly in lieu of any other express or implied warranties, including any implied warranty of merchantability or fitness for a particular purpose, and of any other obligation on the part of Jet-Lube of Canada Ltd.

The sole remedy for breach of the Limited Express Warranty shall be the refund of the purchase price. All other liability is negated and disclaimed, and Jet-Lube of Canada Ltd. shall not be liable for incidental or consequential damages.
