

# PS TERMINAL™

Electrical Contact Cleaner

Cleaners & Degreasers

## DESCRIPTION

**PS TERMINAL™** is an electrical contact cleaner formulated with a blend of HFC solvents and propellants to safely and quickly clean electrical and electronic components and equipment without damaging the environment or ozone levels. **PS TERMINAL** will penetrate and remove dirt, grease and organic contaminants and then evaporate leaving a residue-free surface. The blend of HFC's provides a Kauri-Butanol value nearly as low as the old CFC 113 historically used in the electrical contact cleaning markets.

**PS TERMINAL** is nonflammable, dries quickly and has a high 35,000 volt dielectric strength. **PS TERMINAL** is safe on all metals and most plastics\*. For optimum results, spray a minimum amount to clean the part. Excess spray is wasteful and could result in plastic compatibility problems where none would typically occur.

## CHARACTERISTICS

- Safe on plastics\*
- Nonflammable
- Nonstaining
- Residue Free
- Odorless
- Easy to use
- May be used while equipment is operating
- >35 kv Dielectric Strength
- USDA Authorized

## USES

Electrical Contacts  
Metal Surfaces  
Computers\*  
Electronic Parts  
Calculators

Electronic Motors  
Typewriters  
TV Tuners  
Refrigeration Units  
Portable Radios

. AUTOMOTIVE . ELECTRICAL . INDUSTRIAL  
. MARINE . RESIDENTIAL

\* Although much safer, this product may etch, discolor or crack the following plastics: ABS, Polystyrene, Pebax 2533 Resin and Polymethyl Methacry (Acrylic Resin). Test in a inconspicuous area before using.
