#### DESCRIPTION

**JET-LUBE RD-P** is designed to lubricate percussive drilling equipment such as hydraulic or pneumatic drills, hammers, bits, etc. In use, it will coat the walls and internal components of the rock drilling equipment, providing a protective film on the equipment. This film helps to repel water which could cause rust and corrosion when the equipment is not in use.

**RD-P** is environmentally safe to use in circulating systems where it is expelled directly into the formations being drilled.

#### CHARACTERISTICS

- Environmentally acceptable formula
- Non-metallic
- Demulsifies, less likely to be washed from metal surfaces
- Coats internal drilling components
- High film strength
- Superior lubricity
- Extends drilling component life

#### OPERATING RANGE

-18°C to 205°C (0°F to 400°F)

#### PRODUCT SPECIFICATIONS

Fluid Type	Vegetable Oil
Specific Gravity	.917
Density (kg/liter), Typical	.92
Viscosity @ 40°C	39.1 cSt
Pour Point	-28°C (-18°F)
Flash Point	>230°C (450°F)
Shell 4-Ball Weld Point	315
Copper Strip Corrosion	1B
Color/Appearance	Dark Liquid

#### PACKAGING

Inventory Code	Container Size	Container
18033	1 US Gallon	Pail
18035	5 US Gallon	Pail

#### LIMITED WARRANTY

Jet-Lube of Canada makes the Limited Express Warranty that at the date of delivery, this product shall be free from defects in Jet-Lube of Canada Ltd. materials and workmanship.

This Limited Express Warranty is expressly in lieu of any other express or implied warranties, including any implied warranty of merchantability or fitness for a particular purpose, and of any other obligation on the part of Jet-Lube of Canada Ltd.

The sole remedy for breach of the Limited Express Warranty shall be the refund of the purchase price. All other liability is negated and disclaimed, and Jet-Lube of Canada Ltd. shall not be liable for incidental or consequential damages.
