DESCRIPTION

JET-LUBE's RENEW™ was developed to meet the demands of today's industrial grade belt dressing. **RENEW** eliminates problem belt slippage on all round, flat and "V" power transmission belts, auto fan belts and all industrial and farm machinery belt drives.

RENEW's dry, tacky film increases traction, while permitting decreased belt tension for longer belt life. Can increase power up to 50%. **RENEW** is resistant to water wash-off and performs effectively under wet conditions. **RENEW** removes residual build-up and will not glaze or collect dirt and dust. May be applied while belts are in operation.

- Prevents Slippage
- Stops Squeaks, Squeals
- Extends Belt Life
- Resists Water Wash-Off
- Increases Power
- USDA/FDA Authorized

APPLICATIONS

Excellent for use on flat, round and V-style belts used on auto, industrial, dairy and farm belt drives. Chemically stable, non-drying and water resistant for maximum efficiency.

RENEW™
